Report description:

Domestic airlines are recovering at a quicker rate than their international counterparts, thanks to domestic demand currently being for local routes. Moreover, the recovery in demand for airline travel is largely dependent on economic spend. Indeed, affluent households and businesspersons are generally more inclined to fly domestically and are less impacted by economic volatility, benefiting local airlines. On the other hand, many international airlines are starting from scratch to assess demand...

Euromonitor International's Airlines in South Africa report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2017-2021, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. AIRLINES IN SOUTH AFRICA
KEY DATA FINDINGS
2022 DEVELOPMENTS
Economic spend drives demand for domestic airline seats, while flooding damages infrastructure
Financially distressed airlines lead to fewer airline seats being available in 2022
PROSPECTS AND OPPORTUNITIES
Lifting of more travel restrictions set to boost sales, but demand likely to be slow during the forecast period
Several international airlines use code share to enter the competitive landscape, while domestic airlines diversify, leading to more options for travellers
