Report description:

Surface care products were amongst the most sought-after during 2020, as a lack of knowledge around the virus led to a hygiene frenzy, and stockpiling became the norm for many consumers. However, as knowledge of COVID-19 expanded and vaccines became available, consumers started to experience cleaning fatigue, and they started to utilise the products that they had stockpiled, leading to a decline in the sales of surface care products.

Euromonitor International's Surface Care in Canada market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2026 illustrate how the market is set to change.
