- Multi-User License \$4500.00
- Custom Research License \$7500.00

**Report description:**

United Kingdom telecom ICT infrastructure market may flourish with an impressive CAGR during the forecast period of 2023-2027, due to the growing demand for faster internet connections. Growing dependency over internet based services also drives the growth of the United Kingdom telecom ICT infrastructure market in the upcoming five years. High risk of data theft and growing demand for the elaborated cyber security and ensured safety of the shared data further enunciates the growth of the United Kingdom telecom ICT infrastructure market in the next five years. Increasing demand for software as a service (SaaS) also fuels the growth of the United Kingdom telecom ICT infrastructure market in the future five years. With increasing number of market players actively advancing their products and services along with the advancing technologies, the market is likely to achieve growth in the forecast years through 2027.

The United Kingdom telecom ICT infrastructure market is segmented by component, deployment mode, network type, end user, competition landscape, and regional distribution. Based on component, the market is further segmented into hardware, software, and services. Hardware includes networking equipment, transmitting device, and end point device. Software includes

operations support software, business support software, network management software, and others. Services include professional and managed services. Hardware is anticipated to hold the largest revenue shares of the market and dominate the market segment in the upcoming five years on the ground of increasing demand for the faster internet connections and thus the surging demand for the hardware like networking equipment, transmitting device, and end point devices. Moreover, technological advancement in the equipment also fuels the growth of the United Kingdom telecom ICT infrastructure market in the forecast years.

ZTE Corporation, Ciena Corporation, Cisco Systems Inc., CommScope, Inc., Fortinet Inc., Fujitsu, Huawei Technologies, Juniper Networks Inc., among others is a partial list of major market players responsible for the growth of the United Kingdom telecom ICT infrastructure market.

Years considered for this report:

Historical Years: 2017-2020

Base Year: 2021

Estimated Year: 2022E

Forecast Period: 2023F-2027F

Objective of the Study:

- To analyze the historical growth in the market size of the United Kingdom Telecom ICT Infrastructure market from 2017 to 2021.
- To estimate and forecast the market size of United Kingdom Telecom ICT Infrastructure market from 2022E to 2027F and growth rate until 2027F.
- To classify and forecast the United Kingdom Telecom ICT Infrastructure market based on component, deployment mode, network type, end user, region, and company.
- To identify the dominant region or segment in the United Kingdom Telecom ICT Infrastructure market.
- To identify drivers and challenges for the United Kingdom Telecom ICT Infrastructure market.
- To examine competitive developments such as expansions, new product launches, mergers & acquisitions, etc., in the United Kingdom Telecom ICT Infrastructure market.
- To identify and analyze the profiles of leading players operating in the United Kingdom Telecom ICT Infrastructure market.
- To identify key sustainable strategies adopted by market players in the United Kingdom Telecom ICT Infrastructure market.

TechSci Research performed both primary as well as exhaustive secondary research for this study. Initially, TechSci Research sourced a list of companies across the country. Subsequently, TechSci Research conducted primary research surveys with the identified companies. While interviewing, the respondents were also enquired about their competitors. Through this technique, TechSci Research could include the companies, which could not be identified due to the limitations of secondary research. TechSci Research analyzed the companies and presence of all major players across the country.

TechSci Research calculated the market size of the United Kingdom Telecom ICT Infrastructure market using a bottom up approach, wherein data for various end-user segments was recorded and forecast for the future years. TechSci Research sourced these values from the industry experts and company representatives and externally validated through analyzing historical data of services for getting an appropriate, overall market size. Various secondary sources such as company websites, news articles, press releases, company annual reports, investor presentations and financial reports were also studied by TechSci Research.

Key Target Audience:

- Telecom ICT Infrastructure companies
- Market research and consulting firms
- Government bodies such as regulating authorities and policy makers
- Organizations, forums, and alliances related to Telecom ICT Infrastructure

The study is useful in providing answers to several critical questions that are important for the industry stakeholders such as companies and partners, end users, etc., besides allowing them in strategizing investments and capitalizing on market opportunities.

Report Scope:

In this report, United Kingdom telecom ICT infrastructure market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

**Scotts International. EU Vat number: PL 6772247784**

- United Kingdom Telecom ICT Infrastructure Market, By Component:

o Hardware

- Networking Equipment

- Transmitting Device

- End Point Device

o Software

- Operations Support Software

- Business Support Software

- Network Management Software

- Others

o Services

- Professional

- Managed

- United Kingdom Telecom ICT Infrastructure Market, By Deployment Mode:

o On-Premises

o Cloud

- United Kingdom Telecom ICT Infrastructure Market, By Network Type:

o Wireless

o Fixed

- United Kingdom Telecom ICT Infrastructure Market, By End User:

o Telecom Service Providers

o Government

o Enterprises

o Others

- United Kingdom Telecom ICT Infrastructure Market, By Region:

o Wales

o Scotland

o England

o Northern Ireland

Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in United Kingdom telecom ICT infrastructure market.

Available Customizations:

With the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

Company Information

- Detailed analysis and profiling of additional market players (up to five).

## Table of Contents:

1. Service Overview

2. Research Methodology

3. Executive Summary

4. Impact of COVID-19 on United Kingdom Telecom ICT Infrastructure Market

5. Voice of Customers

6. United Kingdom Telecom ICT Infrastructure Market Outlook

6.1. Market Size & Forecast

6.1.1. By Value

6.2. Market Share & Forecast
