Report description:

Sales of wine saw a significant decline in volume terms in 2020 due to the lockdown and closure of bars and restaurants as a result of COVID-19, leading to double-digit decline in the on-trade channel. In 2021, given the importance attached to the social and celebratory aspect of wine drinking, the recovery of the category was linked to the lifting of restrictions on the opening of bars/restaurants and on limits on gatherings. Although the per capita consumption of wine was still relatively low...
