### **Report description:**

Total volume and current value sales of wine saw a rebound in Spain in 2021, moving back towards the pre-pandemic level, with growth seen across all categories. This was largely due to the strong growth of sales in on-trade channels, as bars and restaurants reopened, and customers were able to return to these locations. Sales of wine in Spain are in part connected to the tourism industry, which saw some recovery in 2021 when compared with 2020. Even though international tourism remained down on...
