Report description:

Danes' motivation to get rid of the weight they gained during COVID-19 is strong in 2022. Following the snacking culture that characterised the extended periods of home seclusion and resulted in higher consumption levels of chocolate confectionery, Danish consumers are more mindful about their sugar consumption. Many people have resumed normal working in the office and working out at gyms. This means that volume sales of chocolate confectionery overall are expected to stagnate in 2022. However,...
