- Multiple User License (Global) €2475.00

Report description:

Rapid population growth in Bolivia in 2021-2040 will be driven by positive, yet declining, rates of natural increase. While the ageing trend will quicken, Bolivia will remain one of the younger regional countries due to relatively high birth rates and low life expectancy. Urbanisation will be brisk. As the population surges and incomes rise, Bolivia should become an increasingly appealing consumer market up to 2040, however elevated levels of poverty and inequality are set to continue.

Euromonitor's Bolivia in 2040: The Future Demographic report analyses factors influencing national consumer expenditure. Consumer lifestyles reports include coverage of: population, urban development, home ownership, household profiles, labour, income, consumer and family expenditure, health, education, eating habits, drinking habits, shopping habits, personal grooming, clothing, leisure habits, savings and investments, media, communication, transport and travel and tourism. Use this report to understand the factors influencing a nation's lifestyle choices.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Consumer Lifestyles market;
- * Pinpoint growth sectors and identify factors driving change;
- * Understand the competitive environment, the market's major players and leading brands;
- * Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
