Report description:

After the sharp slowdown seen at the start of the COVID-19 pandemic, sales of luxury goods continued to show signs of recovery in 2022. Sales of personal luxury have been boosted by the reopening of stores and the progression of the country's COVID-19 vaccination programme, coupled with the easing of public health restrictions. As consumers start to lead more active lives outside the home they have started to invest in designer apparel and footwear (ready-to-wear), luxury eyewear and super premi...
