Report description:

In 2022 laptops, desktops and monitors are posting positive volume growth again. Laptops and desktops saw a boost during COVID-19 thanks to the huge increase in working from home, with pandemic-related restrictions supporting expansion of the home office. In 2022 the number of people working from home still remains higher than during pre-pandemic years, and more and more people are launching their own businesses, further adding to the work-from-home trend. All of this continues to boost sales in...

Euromonitor International's Computers and Peripherals in Colombia report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth.
