Report description:

Headphone is expected to be one the best performing consumer electronics in 2022, with a further increase in volume sales, though growth will be lower than in 2021. Some consumers are even making multiple headphone purchases with task-specific models in mind; for instance, headphones for exercising, gaming headphones, when commuting on public transport or to aid distance learning or working. In addition, the role of wireless connectivity in terms of pairing wireless speakers and smartphones to s...

Euromonitor International's Headphones in Denmark report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level.
