### **Report description:**

Retail volume sales of mobile phones will continue to grow during 2022. Before the onset of the pandemic, the rate of growth in retail volume sales of smartphones had been slowing, in spite of the increasing affordability of entry-level models. As a significant proportion of Mexicans now have smartphones (more than half in 2022), replacement purchases are increasingly important as a source of demand. However, the economic shock of the pandemic significantly undermined consumer confidence, which...
