Report description:

KEY FINDINGS

The United States Disaster Recovery as a Service market is projected to register a CAGR of 27.55% during the forecast period, 2022-2028. The presence of advanced information technology (IT) infrastructure and the availability of technical expertise drive market growth.

MARKET INSIGHTS

The United States market for Disaster Recovery as a Service (DRaaS) benefits from the presence of key market players. Also, the adoption of cloud services by businesses is on the rise since they help organizations maintain costly infrastructure. In addition, the country has led cloud adoption globally since 2015. Furthermore, the United States Department of Agriculture (USDA), Department of Justice (DOJ), the US Army, Navy, Air Force, and Department of Education were among the early cloud users. Besides, prominent companies based in the US, like Netflix, Instagram, Twitter, Facebook, etc., use the cloud computing model. Moreover, the United States houses cloud provider companies like IBM Corporation, DXC Technology, Google, Microsoft Corporation, and Amazon Web Services Inc. As a result, the vast implementation and application of cloud services are projected to increase the demand for DRaaS. In addition, the thriving cloud services market, given the increased remote workforce, offers ample growth opportunities for the market analyzed.
