Report description:

Remote working, distance learning and restrictions on social interaction during the Coronavirus (COVID-19) pandemic boosted sales of headphones. More hectic home environments, with many consumers spending long periods in close proximity, heightened the need for headphones for noise-cancelling and telephone/video conferencing purposes. Headphones also benefited from relatively low price points, compared with other devices, during a time of high economic uncertainty. Despite a return to pre-pandem...

Euromonitor International's Headphones in Norway report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level.
