Report description:

Headphones is set to record stable growth in 2022, picking up marginally from the previous year, as the economy improves and incomes begin to recover from the devastating effects of the pandemic. Most of the growth is being driven by the dynamic TWS earbuds, as consumers continue to switch to modern, fashionable earbuds, while wireless headbands is also predicted to record a positive performance during the year. As a result, wireless earphones is continuing to experience declining demand, with p...
