Report description:

The sales volume of LCD TVs will continue to show positive retail volume growth in 2022 driven by several key trends. Currently, smart LCD TVs represent 80% of sold TVs and the demand is still growing as consumers increasingly want devices that connect to the internet and provide them with a greater number of viewing options. Several brands are reacting to this trend through offering limited-time free subscriptions to entertainment streaming platforms such as Apple TV and Watch It. In addition,...
