- Multiple User License (Global) €2475.00

Report description:

Following a considerable upturn in demand during 2020 and 2021 in line with home seclusion as local consumers looked to alternative forms of entertainment, as they were unable to spend time socialising with others for notable periods, retail volume sales of televisions (both LCD and OLED formats) are set to decline in 2022. Nevertheless, overall demand is predicted to remain higher than pre-pandemic levels.

Euromonitor International's Home Video in Hong Kong, China report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.
