- Multiple User License (Global) €2475.00

Report description:

Once seen as a fad that would end quickly, foldable phones are gaining in popularity among local consumers who value this unique format. They value the larger screen size that can help preserve their eyesight in addition to helping them to type better over a bigger screen. Foldable phones used to be a Samsung-exclusive product, but the popularity of the initial models has encouraged competitors to invest in this concept, including Microsoft Surface Duo and Oppo Find N.

Euromonitor International's Mobile Phones in Hong Kong, China report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth.
