Report description:

Wearable electronics are becoming increasingly popular and for the second year running, are expected to register a double-digit increase in volume and current value sales. In fact, wearable electronics are expected to be the performing consumer electronic in 2022. Preventative health is the main driver of value sales of wearable electronics, as consumers look to lead active, healthy lifestyles. Smart wearables are also expected to outperform activity wearables in terms of growth, as consumers ap...
