

India Bioethanol Market, By Source (Sugar & Molasses Based, Grain Based, Lignocellulosic Biomass), By Purity (Denatured v/s Undenatured), By Application (Fuel & Fuel Additives, Disinfectant, Industrial Solvents, Beverages, Personal Care, Others), By Region, Competition, Forecast & Opportunities, 2017-2027

Market Report | 2022-08-01 | 124 pages | TechSci Research

AVAILABLE LICENSES:

- Single User License \$3500.00
- Multi-User License \$4500.00
- Custom Research License \$7500.00

Report description:

India Bioethanol market is anticipated to grow at an impressive CAGR of 17.44% to reach at USD 10644.31 million by 2027. Bioethanol is a relatively low-cost alternative fuel that boasts less pollution and is readily available than unblended gasoline. As it is a product of molasses, grains and processed corn, Bioethanol also reduces the pressure to drill in environmentally sensitive places. Bioethanol production also supports farmers and creates domestic jobs as it is produced from domestically grown crops which helps in reducing dependence on foreign oil.

Though Bioethanol and other biofuels are often promoted as clean, low-cost alternatives to gasoline, sugarcane farming, which is mostly used as raw material for producing Bioethanol in India, still has a harmful impact on the environment as sugarcane is highly water intensive crop and its high cultivation is gradually leading to lowering of water table. Intensive use of fertilizers and pesticides used in farming also affect land productivity and soil's water retention capacity.

Bioethanol demand has tripled in four years, but production capacity has only doubled. According to recent trends in the segment, Bioethanol production is witnessing steep rise due to mandatory blending of 20% Bioethanol in Gasoline by 2025 and 10% by 2022. Automobile companies are also looking forward to rollout of E20 material-compliant and E10 engine-tuned vehicles from April 2023.

Apart from its use as a fuel, Bioethanol's demand is increasing extensively as a solvent in the manufacturing of varnishes and perfumes, and as surface disinfectant the demand for which was at peak during COVID-19 as it was used in manufacturing of hand sanitizers.

Favorable Policies by Government Drives the Market Growth

Scotts International. EU Vat number: PL 6772247784

Government has set target of blending 10% Bioethanol till 2022 and 20% of it till 2025, in gasoline. New policies like National Policy on Biofuels, 2022 and Ethanol Blended Petrol (EBP) program are seen to be the principal driver for the demand expansion of Bioethanol in India. The EBP program aims to address environmental concerns, reduce oil import bill and provide remunerative income to farmers. Currently, Bioethanol blending level in petrol is around 8.5%. Under the EBP program the government has already reintroduced the administered price mechanism for Bioethanol procurement, allowing Bioethanol production from multiple feedstocks like heavy molasses, sugarcane juice, sugar, sugar syrup, damaged food grains, maize and surplus rice stocks with Food Corporation of India (FCI).

Surplus Raw Material Availability Fuels the Market Growth

To increase production of fuel grade Bioethanol and to achieve blending targets, the Government of India has allowed use of maize and rice with FCI for production of Bioethanol. Production of Bioethanol would not only facilitate diversion of excess sugar to Bioethanol but would also encourage farmers to diversify their crops to cultivate particularly maize/corn which requires less water. It would enhance production of Bioethanol from various feed stocks thereby, facilitate in achieving blending targets of Bioethanol with petrol and would reduce import dependency on crude oil.

Market Segmentation

The India Bioethanol market is segmented based on Source, Purity, Application and competition landscape. Based on Source, the market is further fragmented into Sugar & Molasses Based, Grain Based, Lignocellulosic Biomass and based on purity, it is fragmented into Denatured and Undenatured, and on basis of application, into Fuel & Fuel Additives, Disinfectant, Industrial Solvents, Beverages, Personal Care and Others.

Bajaj Hindusthan Sugar Ltd., Triveni Engineering & Industries Ltd., Gulshan Polyols Ltd, Ankur Biochem Pvt. Ltd., India Glycols Ltd, Novozymes South Asia Private Limited, Danisco A/S, Jiangsu Boli Bioproducts Co., Limited are among the major market players in India Bioethanol market.

Years considered for this report:

Historical Years: 2017-2020

Base Year: 2021

Estimated Year: 2022E

Forecast Period: 2023F-2027F

Report Scope:

In this report, India Bioethanol market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

- India Bioethanol Market, By Source:

o Sugar & Molasses based

o Grain based

o Lignocellulosic Biomass

- India Bioethanol Market, By Purity:

o Denatured

o Undenatured

- India Bioethanol Market, By Application:

o Fuel & Fuel Additives

o Industrial Solvents

o Beverages

o Disinfectant

o Personal Care

o Others

- India Bioethanol Market, By Region:

o North

Scotts International. EU Vat number: PL 6772247784

- o West
- o South
- o East

Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in India Bioethanol market.

Available Customizations:

With the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

Company Information

- o Detailed analysis and profiling of additional market players (up to five).

Table of Contents:

1. Product Overview
2. Research Methodology
3. Executive Summary
4. Impact of COVID-19 on India Bioethanol Market
5. Voice of Customer
 - 5.1. Factors Affecting Purchase Decisions
 - 5.2. Challenges and Unmet Needs
 - 5.3. Consumption Contract Size
6. India Bioethanol Market Outlook
 - 6.1. Demand Supply Analysis
 - 6.1.1. Details of Upcoming Capacities in Grain Based Bioethanol (Confirmed and Speculative)
 - 6.2. Market Size & Forecast
 - 6.2.1. By Value & Volume
 - 6.3. Market Share & Forecast
 - 6.3.1. By Source (Sugar & Molasses Based, Grain Based, Lignocellulosic Biomass)
 - 6.3.2. By Purity (Denatured v/s Undenatured)
 - 6.3.3. By Application (Fuel & Fuel Additives, Industrial Solvents, Disinfectant, Personal Care, Beverages, Others)
 - 6.3.4. By Region
 - 6.3.5. By Company (FY2022)
 - 6.4. Product Market Map
7. India Bioethanol Market - Segmental Analysis
 - 7.1. India Sugar & Molasses Based Bioethanol Market Outlook
 - 7.1.1. Market Size & Forecast
 - 7.1.1.1. By Value & Volume
 - 7.1.2. Market Share & Forecast
 - 7.1.2.1. By Application
 - 7.1.2.2. By Region
 - 7.2. India Grain Based Bioethanol Market Outlook
 - 7.2.1. Market Size & Forecast
 - 7.2.1.1. By Value & Volume
 - 7.2.2. Market Share & Forecast
 - 7.2.2.1. By Application
 - 7.2.2.2. By Region
 - 7.3. India Enzyme Market Outlook

7.3.1.	Market Size & Forecast	
7.3.1.1.	By Value & Volume	
7.3.2.	Market Share & Forecast	
7.3.2.1.	By Application	
7.3.2.2.	By Region	
7.4.	India Lignocellulosic Biomass Based Bioethanol Market Outlook	
7.4.1.	Market Size & Forecast	
7.4.1.1.	By Value & Volume	
7.4.2.	Market Share & Forecast	
7.4.2.1.	By Application	
7.4.2.2.	By Region	
8.	Market Dynamics	
8.1.	Drivers	
8.2.	Challenges	
9.	India Sourcing Intelligence of Raw Material Including Enzymes By Ethanol Industry	
10.	Market Trends & Developments	
11.	Policy & Regulatory Landscape	
12.	Trade Dynamics, By Value and Volume, 2018-2021	
12.1.	Imports	
12.2.	Exports	
13.	Value Chain Analysis	
14.	India Enzyme Customer Analysis For Bioethanol Manufacturing (Leading 15 Customers - Annual Consumption, Price, Key Contact Person, Contract Details)	
15.	Pricing Analysis	
16.	India Economic Profile	
17.	Competitive Landscape	
17.1.	Competition Outlook	
17.2.	Company Profiles	
17.2.1.	Bajaj Hindusthan Sugar Ltd.	
17.2.2.	Triveni Engineering & Industries Ltd.	
17.2.3.	Gulshan Polyols Ltd	
17.2.4.	Ankur Biochem Pvt. Ltd.	
17.2.5.	India Glycols Ltd	
17.2.6.	Novozymes South Asia Private Limited	
17.2.7.	Danisco A/S	
17.2.8.	Jiangsu Boli Bioproducts Co., Limited	
17.2.9.	Advanced Enzyme Technologies Ltd.	
17.2.10.	DSM Nutritional Products India Pvt. Ltd.	
17.2.11.	Balrampur Chini Mills Limited	
18.	Strategic Recommendations	
Note: The data given for any year represents the market during the period, i.e., 1st April of the previous year to 31st March of that year. eg: For 2022E, the data represents the period, 1st April 2021 to 31st March 2022.
