Report description:

Consumer electronics is set to experience further growth in 2022, despite the tough market environment. Many residents in the United Arab Emirates continued to work remotely in the first half of the year, following a hybrid working model and spending greater time indoors. E-commerce is also set to facilitate strong growth as many leading players have developed a reputed and confirmed supply chain and delivery logistics system for their products.

Euromonitor International's Consumer Electronics in United Arab Emirates report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.

Product coverage: Computers and Peripherals, In-Car Entertainment, In-Home Consumer Electronics, Portable Consumer Electronics.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
