Report description:

The foundational technology for any television is the display followed closely by sound, and manufacturers with money to invest in research and development are attempting to identify new ways to deliver better picture and audio quality. In a commoditised product category such as televisions, where most models offer similar capabilities and features with good performance, one strategy that manufacturers are adopting to gain a competitive advantage is by embracing high-end design, and positioning...

Euromonitor International's Home Video in United Arab Emirates report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.
