- Multiple User License (Global) €2475.00

Report description:

Wearable electronics continues to experience rising demand in South Korea, driven by heightened health awareness and the need to manage and track health goals since the emergence of the pandemic. Smart wearables holds the highest retail volume share overall, followed by the more affordable but less technically- developed activity bands, as offered by the likes of Xiaomi's Mi Band. Smart wearables (often referred to as smartwatches) such as Apple Watch and Samsung Galaxy Watch provide healthcare...

Euromonitor International's Wearable Electronics in South Korea report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.
