Report description:

Sales of wearable electronics via e-commerce are continuing to rise, especially for smart wearables (smartwatches), as increasing numbers of manufacturers mark their presence in the online world and consumers conduct online research prior to completing their purchase. They achieve this by either visiting websites of manufacturers or retailers, and by using suggestions such as "Best buy" to help make purchasing decisions. As a main purchasing criterion, "brand" is cited as a purchase reason follo...

Euromonitor International's Wearable Electronics in United Arab Emirates report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.
