### **Report description:**

#### **KEY FINDINGS**

The Asia-Pacific clinical trials support services market is estimated to surge with an 8.21% CAGR over the assessment period, 2022 and 2030. The availability of high-quality data at a low price and the presence of a huge population drive market growth.

#### **MARKET INSIGHTS**

The Asia-Pacific clinical trials support services market growth evaluation entails the analysis of Japan, China, Singapore, South Korea, Taiwan, India, Australia & New Zealand, Thailand, and Rest of Asia-Pacific. In India, clinical trials are surging. Therefore, clinical trial support services are expected to propel in the next few years. Further, in 2020, there were various top therapy areas for industry-sponsored clinical trials in India, which helped to support the demand for clinical trials during the forecast period. South Korea has emerged as an attractive country to conduct clinical trials because it offers clinical experts who conduct the clinical trials, infrastructure, dense population, supportive government regulations, etc. Sponsors prefer conducting clinical trials in South Korea due to its speed and quality. With the high density of the population, patients are easily available for participation and the advanced hospitals available in the country. South Korea has an added advantage with access to a larger population. On the other hand, in Taiwan, the development of the international biotechnology industry is increasing rapidly. Different types of research and development have been advanced to the clinical trial stage. Also, the competition is rising between Japan and South Korea, and as a result, the Taiwan government set up a one-stop shop to provide domestic and international partners with key information on Taiwan's clinical trial environment.
