Report description:

Imaging devices is set to continue to suffer declines in both retail volume and current value terms in 2022, due to less consumer interest in owning a separate digital camera or digital camcorder. With the quality of the images and video taken by smartphone cameras improving, and better able to replicate sophisticated features on imaging devices, owning a smartphone is enough to capture the most important moments. Despite the fact that some imaging devices offer the option to connect online, sma...

Euromonitor International's Imaging Devices in Netherlands report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth.
