Asia-Pacific Generics Market Summary, Competitive Analysis and Forecast, 2017-2026

Summary

Generics in Asia-Pacific industry profile provides top-line qualitative and quantitative summary information including: market size (value and volume 2017-21, and forecast to 2026). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the market.

Key Highlights

- For the purposes of this profile, a generic drug is defined as a copy of an ethical (prescription) drug formerly protected by patents that have now expired. Both unbranded generics and all branded generics are included. However, off-patent drugs that continue to be offered by the original manufacturer under the original name, and which form part of the 'generic-eligible' market, are not included.
- The Asia-Pacific generics market had total revenues of \$148.9bn in 2021, representing a compound annual growth rate (CAGR) of 6% between 2016 and 2021.
- Market consumption volume increased with a CAGR of 2.2% between 2016 and 2021, to reach a total of 86.1 % in 2021.
- Growth in the market was primarily driven by growth in China and India. In the Chinese market, an aging population alongside increased awareness over healthcare has led to strong growth for generics.
