Report description:

Retail constant value sales (2022 prices) of computer and peripherals declined for the first time in three years during 2022, but retail volume sales continued to rise - albeit at a slower rate than in the previous year. 2020 was a boom year for computer demand in Spain, as the pandemic led to many people working or studying from home. However, this had a negative effect on demand in both 2021 and 2022, due to a reduction in replacement purchases. The largest declines in retail constant value sa...

Euromonitor International's Computers and Peripherals in Spain report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth.
