Report description:

Consumers in Saudi Arabia continue to favour acetaminophen for use by both adults and children, with both adult acetaminophen and paediatric acetaminophen seeing increased retail volume and current value sales in 2022. Consumers have responded positively to the recommendations of physicians and the National Health authorities that acetaminophen is more effective in treating some of the most pronounced symptoms of the COVID-19 virus, including fever, headaches, respiratory tract inflammation, and...

Euromonitor International's Analgesics in Saudi Arabia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2017-2021, allowing you to identify the sectors driving growth. Forecasts to 2026 illustrate how the market is set to change.
