Report description:

Computers and peripherals overall is declining in both business and retail volume terms in 2022 as purchases slow down thanks to economic pressures leading to tighter consumer budgets. Global supply chain problems are also impacting on production and delivery, with product shortages and late deliveries. The semiconductor shortage began prior to the pandemic as manufacturers were already operating at fully capacity. The outbreak of COVID-19 exacerbated the issue which has been made worse by China...

Euromonitor International's Computers and Peripherals in Thailand report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth.
