Report description:

Imaging devices continues to record declining volume sales in 2022. The decline is predominantly due to a strong fall in sales of digital cameras, which are more frequently being replaced by alternative devices - primarily smartphones. Cameras in smartphones are undergoing continual development, with some models now having front and back or even multiple cameras, 8K video recording, AMOLED screen and bokeh technology. As a result, consumers are fully satisfied with the imaging capabilities of th...

Euromonitor International's Imaging Devices in Poland report offers a comprehensive guide to the size and shape of the in-home, portable and in-car consumer electronics products markets at a national level. It provides the latest retail sales data, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, distribution or pricing issues. Forecasts illustrate how the market is set to change.

Product coverage: Digital Camcorders, Digital Cameras.
