### **Report description:**

Retail constant value sales (2022 prices) of paediatric consumer health fell for the third year in a row during 2022, with the pace of decline accelerating significantly. Retail constant value sales also declined during the review period as a whole, with a declining birth rate at the root of this. According to the National Statistics Institute (NIE), just 159,705 children were born in Spain during the first half of 2022-the lowest figure since records began in 1941.

Euromonitor International's Paediatric Consumer Health in Spain report offers a comprehensive guide to the size and shape of the market at a national level.
