### **Report description:**

The report on the global fuel management system market provides qualitative and quantitative analysis for the period from 2020 to 2028. The report predicts the global fuel management system market to grow with a CAGR of over 5% over the forecast period from 2022-2028. The study on the fuel management system market covers the analysis of the leading geographies such as North America, Europe, Asia-Pacific, and RoW for the period of 2020 to 2028.

The report on the fuel management system market is a comprehensive study and presentation of drivers, restraints, opportunities, demand factors, market size, forecasts, and trends in the global fuel management system market over the period of 2020 to 2028. Moreover, the report is a collective presentation of primary and secondary research findings.

Porter's five forces model in the report provides insights into the competitive rivalry, supplier and buyer positions in the market, and opportunities for the new entrants in the global fuel management system market over the period of 2020 to 2028. Further, IGR- Growth Matrix given in the report brings an insight into the investment areas that existing or new market players can consider.

### **Report Findings**

#### **1) Drivers**

- Growing overall fuel consumption
- Growing adoption of fuel management systems from end users

#### **2) Restraints**

- Substantial initial outlays required for its acquisition

#### **3) Opportunities**

- Technological advancements in fuel management

#### A) Primary Research

Our primary research involves extensive interviews and analysis of the opinions provided by the primary respondents. The primary research starts with identifying and approaching the primary respondents, the primary respondents are approached include

1. Key Opinion Leaders associated with Infinium Global Research
2. Internal and External subject matter experts
3. Professionals and participants from the industry

Our primary research respondents typically include

1. Executives working with leading companies in the market under review
2. Product/brand/marketing managers
3. CXO level executives
4. Regional/zonal/ country managers
5. Vice President level executives.

#### B) Secondary Research

Secondary research involves extensive exploration through the secondary sources of information available in both the public domain and paid sources. At Infinium Global Research, each research study is based on over 500 hours of secondary research accompanied by primary research. The information obtained through the secondary sources is validated through the crosscheck on various data sources.

The secondary sources of the data typically include

1. Company reports and publications
2. Government/institutional publications
3. Trade and associations journals
4. Databases such as WTO, OECD, World Bank, and among others.
5. Websites and publications by research agencies

#### Segment Covered

The global fuel management system market is segmented on the basis of type, offering, applications, and industry.

#### The Global Fuel Management System Market by Type

- Card Based Fuel Management Systems
- Total Fuel Management Systems
- On-site Fuel Management Systems
- Others

#### The Global Fuel Management System Market by Offering

- Hardware
- Software
- Services

#### The Global Fuel Management System Market by Applications

- Fuel Storage Monitoring
- Access Control
- Fuel Dispensing

#### The Global Fuel Management System Market by Industry

- Mining & Construction
- Military & Defense

- Oil & Gas
- Transportation & Logistics

#### Company Profiles

The companies covered in the report include

- Franklin Electric Company, Inc.
- Dover Corporation
- Gilbarco Inc.
- HID Global Corporation
- Road Track
- Multiforce Systems
- ESI Total Fuel Management
- Triscan Group
- Banlaw
- PIUSI S.p.A

#### What does this Report Deliver?

1. Comprehensive analysis of the global as well as regional markets of the fuel management system market.
2. Complete coverage of all the segments in the fuel management system market to analyze the trends, and developments in the global market, and forecast market size up to 2028.
3. Comprehensive analysis of the companies operating in the global fuel management system market. The company profile includes an analysis of the product portfolio, revenue, SWOT analysis, and the latest developments of the company.
4. IGR- Growth Matrix presents an analysis of the product segments and geographies that market players should focus on to invest, consolidate, expand and/or diversify.
