- Multiple User License (Global) €2475.00

Report description:

Baby food is expected to register moderate current value and minimal volume growth in 2022. Two factors are dampening volume sales. Firstly, high inflation caused by in particular increased energy prices due to the war in Ukraine, is dampening volume sales. In addition, in light of the economic uncertainty, Slovenia's birth rate continues to fall, as parents put off having children.

Euromonitor International's Baby Food in Slovenia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2026, clearly indicating how the market is expected to change.

Product coverage: Dried Baby Food, Milk Formula, Other Baby Food, Prepared Baby Food.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Baby Food market;
