Report description:

Dairy products and alternatives is set to witness a slower performance in 2022 in volume terms. After the slight bounce back in demand seen in 2021, following the outbreak of COVID-19 with easing health restrictions and the reopening of foodservice channels, the category is seeing demand normalise. Indeed, the pandemic severely affected the Algerian economy curbing consumers' spending power. The health crisis led to soaring unemployment rates in the country, with many businesses closing. Economy...

Euromonitor International's Dairy Products and Alternatives in Algeria report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2026, clearly indicating how the market is expected to change.
