Report description:

Volume sales of drinking milk products continue to increase over the course of 2022, with sales driven by rising demand in the dominant category of shelf stable milk. However, this positive performance belies a potentially challenging situation for Grupo Rica, the country's dominant dairy producer, and other major stakeholders in the local dairy industry: local consumers are increasingly concerned about the potential for excessive dairy consumption to have a negative impact on their health. While...

Euromonitor International's Drinking Milk Products in Dominican Republic report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2026, clearly indicating how the market is expected to change.
