Report description:

Semi-skimmed shelf stable milk is very popular in Tunisia representing more than 90% of total drinking milk consumption with fresh milk mostly used as an ingredient in other dairy products. Tunisia has experienced milk shortages since 2018 although the situation has steadily improved since the Tunisian authorities approved a new increase in the unit prices of drinking milk, which enabled farmers to gain more profits and continue their operations. The shortages had been triggered by significant i...

Euromonitor International's Drinking Milk Products in Tunisia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
