Report description:

Sports nutrition is projected to continue to see very strong retail volume and current value growth in Serbia over 2022. The category is benefiting from consumers paying greater attention to health and fitness. This trend was already underway, but accelerated by the Coronavirus (COVID-19) pandemic, which heightened awareness of health and wellbeing issues in the country. As pandemic restrictions ease and consumers return to more out-of-home lifestyles, gyms are seeing increasing attendances and...

Euromonitor International's Sports Nutrition in Serbia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2017-2021, allowing you to identify the sectors driving growth. Forecasts to 2026 illustrate how the market is set to change.
