### **Report description:**

The average current value unit price of cheese increased strongly in 2022, largely due to the rising price of raw milk. Production was negatively impacted by a drought in the country, which led to a shortage of raw materials and a subsequent decrease in production. This low supply was exacerbated by the ongoing conflict between dairy producers and trade unions, with widespread strikes taking place across the country. Within this context, companies increased their prices above the rate of inflati...
