### **Report description:**

Remote and hybrid working models are becoming the "new normal" since lockdown restrictions were fully lifted in Australia. The pandemic has significantly changed eating patterns and habits for a number of Australians in the past two years. With the majority of consumers in the country staying at home more often and adopting a hybrid lifestyle, Australians appear to be shifting towards a more flexible pattern of eating at times that are convenient, bringing about a wave of changes in pack sizes a...

Euromonitor International's Dairy Products and Alternatives in Australia report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2017-2021, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth. How key trends such as health and wellness, sustainability and recovery from the pandemic are shaping the market in <|Year|> directly informs our forecasts to 2026, clearly indicating how the market is expected to change.

Product coverage: Baby Food, Dairy, Plant-based Dairy.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

### **Why buy this report?**
