### **Report description:**

Dietary supplements is registering healthy retail value sales growth in 2022, after seeing slower sales in 2021. This deceleration was partly caused by many consumers stockpiling these products during 2020 and first finishing stockpiled products in 2021. In addition, many consumers' purchasing power decreased during the first two years of the pandemic, with many consumers rather focussing on purchasing vitamins and analgesics. Furthermore, dietary supplements are increasingly seen as adjunct to...
