Report description:

During the pandemic consumers were forced to spend more time at home which meant many people ate more healthy home-cooked meals which helped to reduce digestive complaints, while there were also fewer opportunities to spread germs. However, this was counterbalanced by increased stress and anxiety relating to the pandemic and the financial pressures it created, with this being another cause of digestive complaints. As restrictions have been lifted consumers have started to eat out more frequently...

Euromonitor International's Digestive Remedies in Malaysia report offers a comprehensive guide to the size and shape of the market at a national level.
