Report description:

Retail sales of eye care in Portugal registered accelerated growth in 2022, following a sluggish performance in 2021. The growing amount of time spent on digital services, such as laptops, smartphones or tablets, had a positive impact on demand. Studies have shown that younger consumers in particular are increasingly using their smartphones before going to bed, as well as waking up in the night to check their social media accounts. Staring at the tiny screen of a smartphone is known to contribut...
