Report description:

Sleep aids is set to see strong growth in current value terms in 2022, following the positive trend seen in 2020 and 2021. Demand boomed following the outbreak of COVID-19 with the pandemic resulting in drastic changes to consumer lifestyles, including the absence of a social life, restrictions on movement and fewer physical activities. According to the Italian Association for Sleep Medicine in Italy, insomnia ranks second only to anxiety disorder in the psychiatric issues that affected COVID-19...
