### **Report description:**

Analgesics remains amongst the largest and most dynamic categories in the OTC market in Egypt. The strong performance of the category is being supported by organic population growth and the fact that, unlike digestive remedies and cough, cold and allergy (hay fever) remedies, analgesics sales are not heavily seasonal. For example, Panadol is used to treat several different types of pain including headaches and fever.

Euromonitor International's Analgesics in Egypt report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2017-2021, allowing you to identify the sectors driving growth. Forecasts to 2026 illustrate how the market is set to change.

Product coverage: Systemic Analgesics, Topical Analgesics/Anaesthetic.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
