Report description:

Consumers are increasingly purchasing dietary supplements to complement their diet and improve their overall nutritional intake. The COVID-19 crisis bolstered the existing rise in consumer health-consciousness both because of concerns about the immediate threat from the disease and awareness of the potential health impacts of the sedentary lifestyles and disrupted diets typical of lockdown and home seclusion. This has led many consumers to educate themselves on the potential benefits of dietary...

Euromonitor International's Dietary Supplements in Egypt report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2017-2021, allowing you to identify the sectors driving growth. Forecasts to 2026 illustrate how the market is set to change.
