Report description:

Minor digestive ailments are common among Kazakhstanis, partly due to traditional dietary habits but also because of long-term demographic and socioeconomic trends such as population ageing and increasingly busy albeit sedentary lifestyles. Many consumers have also recently become more likely to suffer from such ailments due to COVID-19, whether during the initial infection phase or as a result of long COVID. These factors have continued to buoy overall demand for digestive remedies in 2022, wit...

Euromonitor International's Digestive Remedies in Kazakhstan report offers a comprehensive guide to the size and shape of the market at a national level.
