Report description:

Sports nutrition is set to achieve solid current value growth in 2022. This will be the second consecutive year of recovery following the significant decline it experienced in 2020, caused by COVID-19 lockdowns that saw gyms and sporting facilities closing. However, the return to more normal lifestyles, the recommencement of sports events and the reopening of key venues has led to an upturn in sports nutrition performance.

Euromonitor International's Sports Nutrition in Bosnia and Herzegovina report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2017-2021, allowing you to identify the sectors driving growth. Forecasts to 2026 illustrate how the market is set to change.

Product coverage: Sports Non-Protein Products, Sports Protein Products.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
