Report description:

Sports nutrition was significantly hampered by the COVID-19 pandemic, but is now seeing a moderate recovery in current value sales in 2022 as social restrictions are totally lifted. Consumers are returning to visiting the gym and fitness centres in greater numbers, even though Latvia's COVID-19 restrictions were somewhat more relaxed than in other countries. Indeed, gyms and fitness centres were widely recognised as being high risk areas where people were more likely to contract the virus. As su...
