Report description:

In line with the resumption of scheduled international flights from late March 2022, both inbound and outbound tourism figures are set to witness notable growth after a slump of two years. An easing of pandemic-related restrictions, mass vaccination, and accumulated travel demand over the past year are expected to facilitate the sharp increase in outbound departures in India. Moreover, affluent Indians who have been unable to travel to foreign countries due to pandemic-related restrictions are e...

Euromonitor International's Tourism Flows in India report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2017-2021, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2026 illustrate how the market is set to change.
