Report description:

Travel in Belgium continues to recover from the slump in 2020 caused by the exigencies of the Coronavirus (COVID-19) pandemic. The recovery started in 2021, although there were more limitations on growth as the threat of the pandemic lingered and restrictions on travel and tourism products and services remained in place, if easing. Thus, current value sales growth is expected to accelerate over 2022, compared with 2021, across tourism flows (except domestic, which has recovered faster due to pan...
